CogniSign Test - Michael Davy and Marc Withnall

Purpose: Quick live test of CogniSign email delivery, signing flow, identity verification, and completed-document workflow.

Hello Michael,

We want to get this signed so we can confirm CogniSign is working properly for ordinary signing requests. This is only a test document. It does not create any commercial obligation, approval, authority, or employment arrangement.

Please open the CogniSign link, request the verification code, and sign if everything looks right. Marc will sign as the second test signatory.

Thanks,

ODIN for Marc

Test Acknowledgement

By signing, each signatory confirms only that the CogniSign test link, email verification process, and signature flow worked for them.
